

Stay more connected to our practice with the convenient PocketPatient™ app!

Use PocketPatient* for E-Visits! Here's how...

- Search for "PocketPatient" and download the app from the App Store for iOS or from Google Play for Android.
- You will use your web portal login. Forgot what it is? Ask our staff or use the "reset password" function on the app's login screen. Our staff will also provide you with our practice's URL to use.
- Once logged in to the app, you will receive a prompt to begin.
- Need to request an E-Visit? Simply request a new E-Visit to connect with your provider and share a photo for evaluation from the comfort of your home. This feature is only for routine or non-urgent matters; if you have a medical emergency, dial 911**.

This is just the beginning!

There are more features that will be available in the coming months.

*PocketPatient™ is powered by Modernizing Medicine®, Inc.

**If you have a medical emergency, dial 911 or go to the emergency room.

In addition, please understand that some matters and questions may not be appropriate for E-Visits.
