

SEEKING CARE AT ADVANCED DERMATOLOGY IS SAFE AND TELEHEALTH IS AVAILABLE

Advanced Dermatology takes your health and safety seriously.

Staying six feet away from others may be essential to maintaining your health. But, your doctor is not someone you should be avoiding. In fact, a good way to stay healthy is to stay in touch with your care providers. Skin cancer is the most common form of cancer in the United States and 1 in 5 Americans will develop skin cancer by the age of 70. Booking a skin cancer exam every year or more frequently if you have a history of skin cancer is the best way to detect changes in your skin at the earliest stages. When skin cancer is detected early, the 5-year survival rate for melanoma is 99 percent.

Keeping Your Appointment Keeps You Healthy

Getting an annual exam is a great opportunity to speak to your dermatologist about any other changes you've noticed in your skin, hair and nails. Advanced Dermatology will create a customized treatment plan to address your concerns and keep you healthy.

We care about you and the communities we serve and want you to know that we have implemented the protocols listed below to reduce the risk of transmission of COVID-19.:

- **Screening of all patients and visitors for common COVID-19 symptoms and recent unprotected contact with a known positive COVID-19 patient**
- **Daily screening of all team members and providers**
- **Consistent masking for patients, visitors, and team members. CDC guidelines for mask-wearing still apply in healthcare settings, even if you are fully vaccinated. Thank you for your cooperation.**
- **Social-distancing protocols in place**
- **Provider use of personal protective equipment (PPE)**
- **Elevated levels of cleaning and disinfection**

PATIENT SAFETY IS OUR PRIORITY
